MERN Stack Developer specializing in building scalable, responsive full-stack applications using **MongoDB**, **Express.js**, **React.js**, and **Node.js**. Skilled in **RESTful APIs**, **database design**, and clean, maintainable code.

EDUCATION

Bachelor of Computer Application   **Sep 2021 - Jan 2024**
Hijli College, Vidyasagar University
   Built an AI desktop voice assistant called 'Friday' using python in backend and HTML, CSS, JS in frontend.

Higher Secondary (XII)   **Jan 2019 - Jan 2021**
Kharagpur South Side High School

Secondary (X)   **Jan 2018 - Jan 2019**
Balarampur Abhoy Ashram Naitalim Vidyapith

SKILLS

Frontend Development: HTML, CSS, JavaScript, React.js, Web Design

Backend Development: Node.js, Express.js, Python

Database: MongoDB

Full Stack Development: MERN Stack

WORK EXPERIENCE

Mern Full Stack Developer Intern   **Aug 2024 - May 2025**
Cuvette Tech   **Bangalore, India (Remote)**

- Completed intensive **MERN + DSA** training.
- Built 3+ responsive web applications with **user authentication**, **REST APIs**, and **database integration**.

PROJECTS

Meeting-Management-app ⧉   **Mar 2025 - Apr 2025**

- Built a scheduling platform with **React.js**, **Node.js**, **MongoDB**, and **React Big Calendar** to manage events and calendar views.
- Enabled one-click shareable event links and centralized scheduling, improving booking efficiency.
- Integrated real-time calendar updates to minimize scheduling conflicts.

Link-Tree ⧉   **Feb 2025 - Mar 2025**

- Developed a mobile-friendly, customizable link hub using **React.js**, **Node.js**, **MongoDB**, and **Chart.js**.
- Consolidated profile/shop links into a single page, simplifying user setup and navigation.
- Added real-time analytics and dynamic styling to improve user engagement.

Pocket-Notes ⧉   **Dec 2024 - Jan 2025**

- Created a lightweight, offline-capable notes app using **React.js** and browser **local storage**.
- Implemented group-based categorization for improved note organization.
- Delivered seamless offline functionality to support uninterrupted usage.
